

Javier Abad Martínez

PhD Student in Machine Learning, ETH AI Center

javier.abadmartinez@ai.ethz.ch jaabmar.github.io Google Scholar GitHub LinkedIn

RESEARCH INTERESTS

Language model safety and alignment; privacy-preserving machine learning; causal inference.

EDUCATION

ETH Zurich

PhD in Machine Learning; advisor: Prof. Fanny Yang

ETH AI Center Doctoral Fellow; Simons Institute (UC Berkeley), Fall 2024; GPAI Code of Practice expert group.

University of Cambridge

MPhil in Machine Learning and Machine Intelligence, Distinction

Universidad Politécnica de Valencia

BSc Telecommunications Engineering; BSc Business Administration

GPA: 96% / 95%; Best Student in Telecommunications and Business; Georgia Tech exchange, GPA 4.0/4.0.

RESEARCH EXPERIENCE

Google DeepMind

PhD Student Researcher, Gemma Post-training Team

Apple

Machine Learning Researcher, Visual Generation & AI Safety

Featurespace

Research Scientist

University of Cambridge

Research Assistant, Computational & Biological Learning Lab with Adrian Weller MBE

University of Cambridge

Research Assistant, Van der Schaar Lab with Prof. Mihaela van der Schaar

Universidad Politécnica de Valencia

Research Assistant, Computer Vision & Behavior Analysis Lab

SELECTED PUBLICATIONS

Efficient Randomized Experiments Using Foundation Models

Copyright-Protected Language Generation via Adaptive Model Fusion

Privacy-Preserving Data Release via Optimal Transport and Particle Gradient Descent

Detecting Critical Treatment Effect Bias in Small Subgroups

Hidden Yet Quantifiable: Lower Bounds for Confounding Strength

Approximating Full Conformal Prediction at Scale via Influence Functions

SELECTED TALKS

Google DeepMind

Apple

ICLR 2025

Hasler Foundation

ETH AI Center

AAAI 2023

Inference-time compute for student-teacher distillation

Pre-training visual generation models

Adaptive model fusion for copyright protection

Reliable inference from observational data

Lower bounds for hidden confounding strength

Scaling conformal prediction with influence functions

SELECTED AWARDS

Excellence Fellowship in the Valencian Community

ETH AI Center Doctoral Fellowship

“La Caixa” Excellence Fellowship (declined)

Best Student, Faculty of Telecommunications and Faculty of Business

First place, Spanish national ranking of Telecommunications Engineering students

SKILLS AND LANGUAGES

Technical: Python, PyTorch, JAX, TensorFlow, Triton, MATLAB.

Languages: Spanish and Catalan (native); English (fluent, C2); German (B1).
